Investment Performance Information - January 1, 2026 to March 31, 2026

The following are percentage changes in Net Assets (with capital gains and income dividends reinvested) for the funds under the Plan, for the respective periods ended 03/31/2026. The results shown represent past performance and do not represent expected future performance or experience. Past performance does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the data quoted. Performance data current to the most recent month-end may be obtained by visiting: WWW.HOOSIERSTART.COM. Please consider the fund's investment objectives, risks, and charges and expenses carefully before investing. The prospectus contains this and other important information about the investment company. Prospectuses are available by calling 1-855-277-4432. Read the prospectus carefully before investing.

The rates of return do not reflect a maximum deduction of a 0.000% annual plan asset fee, which, if reflected, would reduce the performance shown.
Please see other important disclosures at the end of this report.

FEE DISCLOSURES
The Standardized illustration represents performance based on a $10,000 hypothetical investment, and reflects the deduction of the following fees:
Gross expense ratios represent the fund's total operating expenses expressed as a percentage of the assets held in the fund. For more information about gross expense ratios, read the fund's prospectus.
Some mutual funds may impose a short term trade fee. Some funds may be subject to a trade restriction policy. Please read the underlying prospectus carefully.

FOOTNOTES
b) These funds are designed to provide diversification and asset allocation across several types of investments and asset classes, primarily by investing in underlying funds. Therefore, in addition to the fund's expenses, you are indirectly paying a proportionate share of the applicable fees and expenses of the underlying funds.

Investment Performance Information - January 1, 2026 to March 31, 2026

RISK DISCLOSURES

Government Money Market Funds: The Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund is open to all investors. Although the Fund seeks to preserve the value of the investment at $1.00 per share, it cannot guarantee it will do so. You could lose money by investing in the Fund. The Fund may impose a fee upon sale of shares or temporarily suspend the ability to sell shares if the Fund's liquidity falls below required minimums because of market conditions or other factors. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time. The Fund may invest in shares of other government money market mutual funds, including those advised by the Fund's subadviser, to provide additional liquidity or to achieve higher yields. Please refer to the most recent prospectus for a more detailed description of the Fund's principal risks.

International/emerging markets funds: Funds that invest in international stocks face risks that funds investing only in U.S. stocks do not. Currency fluctuation, political risk, differences in accounting standards and the limited availability of information may make these funds less stable.

Small company funds: Small and emerging companies may have less liquidity than larger, established companies. Therefore, funds investing in stocks of small or emerging companies may face greater price volatility and risk.

High-yield bond funds: Funds that invest in high-yield securities may have more credit risk and changes in price than funds that invest in higher-quality securities.

Non-diversified funds: Funds that invest in a single industry or small number of securities may be more volatile than those that invest more broadly.

Government bond funds: These funds invest mainly in securities of the U.S. government and its agencies; however, these entities do not guarantee the value of the funds.

Real estate funds: Funds that invest mainly in real estate are sensitive to economic and business cycles, changing demographic patterns and government actions.

IMPORTANT DISCLOSURES

"Inception Date" is the date the fund was established. The "Since Inception" column contains performance for the funds if the Inception Date was before the time period indicated.

Performance numbers in the YTD (Year To Date) column are not annualized returns and represent the total percentage change in share value from the beginning of the year to the date of this report.

Distributions of contributions and earnings from the Roth account are tax free if contributions have been in the Roth elective deferral account for a period of at least five (5) tax years and the participant is at least 59½ years old at the time of the distribution.
